THE CAREER PIVOT

From Generalist to Specialist

The construction landscape has shifted. Residential and commercial projects are saturated, but the Data Centre sector is experiencing explosive growth driven by AI and Cloud adoption.

Recruiters are no longer looking for P6 operators. They are looking for Data Centre Strategists.

The Generalist Planner

- Treats Data Centres like office buildings.
- Reports delays after they happen.
- Focuses only on Civil & MEP fit-out.
- Result: **Replaceable.**

The DCPP Strategist (You)

- Understands Critical Path impacts of OFCI & LLE.
- Predicts risks before they impact the Go-Live date.
- Master of "White Space" & Commissioning (IST).
- Result: **High-Value Leader.**

THE CURRICULUM

Master the 4 Pillars of Data Centre Planning

Module 01 The Lifecycle Strategy

- From Site Selection to Go-Live milestones.
- Understanding Tier Standards (I-IV) impact on schedule.
- Hyperscale vs. Co-location vs. Enterprise planning.

Module 02 Procurement (LLE)

- Managing OFCI (Owner Furnished Contractor Installed).
- Generators & Chillers: The Long Lead Equipment risks.
- Factory Acceptance Testing (FAT) logistics & shipping.

Module 03 The Build Sequence

- Civil vs. MEP: The battle for space and access.
- "Grey Space" vs. "White Space" handover strategy.
- Early Access milestones for IT fit-out teams.

Module 04 Commissioning & Handover

- The "Commissioning Wall": Why projects fail at the end.
- Levels 1-5 Commissioning explained for Planners.
- Integrated Systems Testing (IST) logic and duration.

LEADERSHIP & ADMISSION

Learn from Active Industry Leaders

The Instructor

- Planning Director overseeing 2GW+ across Europe & Middle East.
- Education: Master's Candidate in Data Centre Leadership (Anglia Ruskin University, UK).
- Credentials: CDCP, PMP | 15+ Years Exp.
